PROJECT EXPERIENCES

SINGAPORE EXCHANGE SUSTAINABILITY ASSURANCE & GREEN FINANCE AUDIT ANALYSIS PROJECT

Independent Project

June 2026

- Analysed and compared ESG audit methodologies across major SGX-listed developers, evaluating compliance with SGX-ST Listing Rules 711A and 711B under SSAE 3000 (Revised), ISAE 3000 (Revised), and ISO 14064-3 standards
- Evaluated verification depth and testing procedures, distinguishing between limited assurance protocols and reasonable assurance frameworks
- Assessed audit risk and scope limitations in green financing transactions, identifying compliance and reporting vulnerabilities caused by the exclusion of Scope 3 value-chain emissions and the structural reliance on negative-expression assurance conclusions

PROPERTY RESALE DATA ANALYTICS & VISUALIZATION (TABLEAU)

Independent project

Dec 2025

- Executed end-to-end ETL and data cleaning workflows in Excel and Tableau on a 220,000+ row public dataset, handling file-size constraints, eliminating target-irrelevant records, and validating data integrity
- Performed string manipulation and schema normalization using Excel functions [such as Flash Fill and UPPER()] to extract street-level location attributes and standardize primary keys across multi-source datasets
- Designed 7 chapters include 5 dashboards in Tableau (histograms, heatmaps, and scatter plots) to analyze price-per-square-meter efficiency, lease depreciation curves, and amenity density trade-offs

DARKTRACE LTD (AN AI CYBERSECURITY FIRM) FINANCIAL REPORT ANALYSIS PROJECT

Independent project

April 2024

- Performed a detailed financial analysis of non-current assets under IFRS, including PPE and intangible assets, ensuring compliance with IAS 16, 38, and 36, and identifying discrepancies between reported and calculated depreciation and amortization
- Evaluated impairment risk for goodwill and intangible assets by analyzing fair value less costs to disposal (FVLCD), market capitalization trends, and business indicators, confirming a \$4.8B headroom and no impairment loss required under IAS 36
- Analysed financial statements and notes to assess accounting policies, asset valuations, and strategic business shifts (e.g., transition to cloud-based solutions), enhancing understanding of how operational changes impact financial reporting and asset management
